## Education

### Drexel University

Bachelor of Science in Computer Science

Cumulative GPA: 3.86

Philadelphia, PA

Anticipated Graduation: June 2024

## Skills

**Languages:** HTML, CSS/SCSS, Javascript/Typescript, C#, Python, SQL, PowerShell

**Frameworks:** React, ASP.NET, Flask

**Tools:** VSCode/Visual Studio, SSMS

## Work History

### Susquehanna International Group

Web Development Co-op

Bala Cynwyd, PA

March 2022 - September 2022

- Created full-stack web apps with jQuery, .NET Core, and SQL Server
- Doubled CI/CD capability by configuring a .NET build server that utilized a GitLab Runner to build/deploy projects
- Designed and implemented a system for deploying NuGet packages to company's Artifactory repository

### Stratagem

Software Developer Intern

King Of Prussia, PA

March 2021 - September 2021

- Modernized the UI of a healthcare web application using jQuery
- Contributed to the front-end of a document classification web app using TypeScript React
- Expanded back-end API by writing new endpoints using the Python framework Flask
- Worked in an Agile-based team and facilitated daily Scrum meetings

## Software Projects

### IP Tracker ([Project Link](#))

Lead Developer

- Single-page React web app that displays the location of an IP address
- Uses the ipify and Google Maps APIs to properly fetch and display IP data

### CountriesAPI ([Project Link](#))

Lead Developer

- Web application that displays about countries all over the world
- Created using React and Next.js. Consumes the REST countries API to fetch data
- Contains a toggle for light and dark mode themes
